Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jones '073 in view of Davis '359. Jones discloses an apparatus for gathering materials (figures 1-15), the apparatus comprising two grasping elements (92,94) each which have shafts (22,24) with grasping means (26,28) at one end. Further, Jones shows the shafts being of 0.5 to 3 inches in diameter and two to six feet in length (as seen in figures 1 and 5) and the grasping means having tines (as best seen in figure 1) but fails to show the coupling means being moveable or flexible. However, Davis teaches that it is well known in the art to connect to implements (figures 1-3) with a relatively moveable coupling means (figure 4). In reference to the claimed limitations of the size of the coupling means and the material from which it is made, these are an obvious matter of design and would be obvious to one having ordinary skill in the art, absent any showing to the

contrary. Further, it would have been obvious to one having ordinary skill in the art to provide the apparatus of Jones with the teachings of Davis in order to provide a material gathering apparatus with a greater operational range.

3. In reference to applicant's arguments is the following: As the examiner understands the application for patent, it appears that the applicant's invention is the use of a flexible member to secure two single tools in opposing relationship. However, as displayed by the above references, such a device is extremely well known in this and several other arts. In addition to those mentioned above, the Bricker reference (not used in a rejection but included to show the general state of the art) shows two dissimilar tools (figure 1) jointed for pivoting movement in concert with one another. To further demonstrate the obvious of such a connection means one needs only to walk into the local Chinese restaurant where children are supplied with chopsticks that include a connection device very similar to that as claimed by the applicant to assist them in learning there use. Although a single piece of prior art does not disclose the invention exactly as claimed, it is believed that given the state of the art, the claimed device is very obvious and would be one of many means that one of ordinary skill in the art would solve the stated problems.

4. Applicant's arguments filed October 23, 2001 have been fully considered but they are not deemed to be persuasive. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P.

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R.

§ 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS FINAL ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
